Price List

Effective from 01.01.2022

As a fertility clinic we understand that embarking on fertility treatment is a significant decision, both emotionally and financially; for many it will be stressful and potentially costly. We will provide you with a costed treatment plan.

Our price list reflects the requirements of the Competition and Markets Authority (CMA), the Advertising Standards Authority (ASA) and the Human Fertilisation and Embryology Authority (HFEA). It is designed to give you a clear overview of what is included within your care package at every stage of your journey with us, from initial investigations and treatments to any additional tests, giving you opportunity to financially plan for your care.

- All appointments, investigations, blood tests, and treatments must be paid for in advance.
- We offer debit and credit card facilities. We are unable to take cash or cheque payments and we do not accept American Express.
- Non-payment of invoices may result in treatment delay or cancellation.
- Your costed treatment plan will remain valid for a period of 60 days. If there is a delay to starting treatment longer than 60 days the costed treatment plan may require revision.
- Please see separate price list for medication costs.
- The price of any consultation will be confirmed to you at the time of booking and whether this is a new patient/planning or follow up appointment.
- There will be a charge for consultation appointments cancelled by you within 24 hours of the appointment time.
- Treatment dates cannot be confirmed until you have a period on downregulation medication and payment for treatment has been received in full.
- If you decide to withdraw from the programme no refund will be payable for any medication, consultations, procedures, scans or blood tests already undertaken.
- In the event of cancellation/ halted treatment, HFEA fees are non-refundable.
- See our refund policy and our terms and conditions in the event treatment is halted.
- Refunds are processed back onto the card you used to pay. Please allow 7 days for the refund to appear on your bank statement.
- Leicester Fertility Centre fees are reviewed annually, if the pricing structure changes a notice period of 30 days will apply.

Starting your journey – Consultant appointments and diagnostic investigations

You will need an initial new patient consultation with one of our consultant fertility specialists prior to setting out on your journey. You may also need some additional tests to help us recommend the best treatments for you

Initial telephone consultation with a consultant of your choice, up to 30 minutes	£210
AMH blood test	£95
Detailed semen analysis including paper copies & telephone discussion with a member of the lab team (if required)	£125
Retrograde sample examination	£200
Hysterosalpingo-Contrast Sonography (HyCosy) to check tubal patency	£420
Counselling -included in all treatments	FOC
Viral screening package price per patient & partner (if required) Viral screening bloods for HIV1+2, HTLV1+2, HepC, Hep B core & surface, TPHA	£158
Planning Consultation telephone consultation with your consultant up to 30 minutes	£185
Follow up telephone Consultation with your consultant up to 30 minutes (if required after a cycle of treatment has been completed)	£80
Appointment Cancellation Fee (cancellation by patient within 24 hours of appointment)	£60

Male Treatment(s)

Treatment packages may not be suitable for patients; your consultant will advise you. The fee's include:

- All laboratory appointments
- Semen analysis
- Freezing of up to 2 samples within an agreed time period
- Storage of samples for an agreed time period up to a maximum of two years

Surgical Sperm Retrieval (including 1 years storage)	£1950
Sperm freezing prior to treatment (including 1 years storage)	£370
Retrograde freezing prior to treatment (including 1 years storage)	£570
Sperm induction with Gonadotrophins (per month)	£1000

Leicester Fertility Centre

Insemination treatment packages IUI and DI

Treatment packages may not be suitable for all our private patients and advice will be given by your consultant. The fee's include:

- All nursing appointments
- All monitoring scans
- Counselling
- Laboratory preparation of semen sample
- Insemination with a clinical nurse specialist
- Early pregnancy scan (if required)
- Supply of donor sperm per treatment cycle (if required)
- HFEA fee(s) as applicable

Intra-uterine insemination (IUI) Natural or Clomid cycle	£800
Intra-uterine insemination (IUI) Gonadotrophin cycle	£850
Donor insemination (DI) Natural or Clomid cycle	£1450
Donor Insemination (DI) Gonadotrophin cycle	£1500
Ovulation Induction	£350

Fresh treatment packages IVF and ICSI

This treatment package may not be suitable for all our private patients and advice will be given by your consultant. The fee's include:

- All nursing appointments
- All monitoring scans
- Counselling
- Egg collection including anaesthetic services and review (if required)
- Embryo culture to blastocyst day 5 (if appropriate)
- Time lapse imaging with photograph at transfer of embryo(s) selected for transfer
- Embryo transfer and embryo glue
- Early pregnancy scan (if required)
- HFEA fee(s) as applicable
- Supply of donor sperm per treatment cycle (if required)

In Vitro-Fertilisation (IVF) Own Eggs with partner sperm	£3255
In Vitro-Fertilisation Own Eggs with donor sperm (IVF- DI)	£3925
In Vitro-Fertilisation (IVF) When Sharing Eggs With Another Patient	£1000
In Vitro-Fertilisation (IVF) Donated Eggs with partner sperm	£5500
Intra-Cytoplasmic Sperm Injection (ICSI) (per cycle if required in addition to IVF and other treatment)	£1320
Cryopreservation (freezing) of surplus embryos after fresh treatment including initial 3 year storage fees (not all embryos are suitable for storage; this will be discussed with you at the time of treatment. Price is inclusive of all embryos suitable for storing)	£500

Fertility Preservation

Some patients may benefit from cryopreservation (freezing) of their egg(s) or sperm samples prior to undergoing medical procedure(s) or taking medication(s) that might impact on future fertility. Others may benefit from the opportunity to cryopreserve samples for use at a later date for personal or social reasons.

We recommend visiting the HFEA website for additional advice and guidance

The fee's include:

- All nursing appointments
- All monitoring scans
- Counselling
- All screening bloods
- Egg collection including anaesthetic services and review (if required)
- Freezing of all mature egg(s) available after collection (if required)
- Freezing of up to 2 semen samples within an agreed time period (if required)
- Continued storage for an agreed time period (normally 3, 7 or 10 years please refer to individual prices below)
- HFEA fee(s) as appropriate

Sperm freezing (including 3 years storage)	£840
Sperm freezing (including 7 years storage)	£1150
Sperm freezing (including 10 years storage)	£1400
Egg freezing (including 3 years storage)	£3110
Egg freezing (including 7 years storage)	£3300
Egg freezing (including 10 years storage)	£3600

Ongoing storage charges

You may incur ongoing additional charges after your treatment cycle has been completed related to continued gamete storage (egg/ sperm and/or embryos). These costs will be made clear to you at the time of initial storage, however the exact prices cannot be guaranteed as they are dependent on additional length of storage and fees applicable at the time of any storage extension.. We will charge the fee pertinent at the time you extend storage. There are no refunds for part storage periods if the gametes have been used in treatment before the expiry period. Please see our refund policy for full details

The prices quoted are for storage only and do not cover the cost of usage or any additional test(s) that may be required to be carried out. Samples can only be stored for a maximum for 10 years unless a medical practitioner confirms otherwise (as per HFE Act)

Sperm storage for up to an additional 3 years	£500
Sperm storage for up to an additional 7 years	£700
Embryo/egg storage for up to an additional 3 years	£500
Embryo/egg storage for up to an additional 7 years	£700
Sibling sperm reservation (includes 3 years storage for use at LFC only)	£500

Frozen Treatment Cycles Embryos/ Eggs

This treatment package is only applicable for those with stored embryos/eggs or those receiving donated embryos. The fee's include:

- All nursing appointments
- All monitoring scans
- Counselling
- Thawing of embryo(s) for treatment (we may need to thaw more than one embryo for treatment)
- Embryo culture to blastocyst day 5 (if required)
- Time lapse imaging with photograph at transfer of embryo(s) selected
- Embryo transfer and embryo glue
- Early pregnancy scan (if required)
- HFEA fee(s)

Own Embryo(s) Frozen Transfer £1450

Own Egg Thaw with Frozen Embryo Transfer (this treatment is inclusive of the ICSI technique but does not include donor sperm if required) £2770

Donated Embryo(s) Frozen Transfer £3500

Elective Freeze all cycle (Embryos) for OHSS risk or inability to transfer embryos (please see terms and conditions) POA

In the event that a clinician recommends elective freezing of all embryos due to medical reasons, such as the risk of OHSS or inability to transfer embryos, there will be no charge for freezing and the embryos will be stored for a 6 month period without charge.

You will be required to pay for the frozen embryo treatment cycle medication, and any consultation fees. The cost of one procedure will be covered by the clinic.

Known donor – Egg or Sperm

We support the LGBTQ+ communities and single females wishing to start a family. This treatment package enables an individual who is not the partner of the commissioning patient/couple seeking treatment to set up as a 'known donor'. This means that the egg or sperm obtained are solely for the use of the commissioning female/couple.

Some patients prefer this option to using an anonymous donor. Prior to being accepted as a known donor we require all potential donors to attend either for an AMH test (female) or semen analysis (male) to ensure eligibility as a known donor

- All nursing and/or lab appointments
- Viral screening
- All monitoring scans for the donor (if required)
- Blood group, Haemoglobinopathy, Cytomegalovirus, CMV IgG and IgM, VDRL & Chlamydia
- Genetic screening (Cystic Fibrosis screening & Karyotype)
- Counselling
- Physical examination
- Egg collection including anaesthetic services and review (if required)
- HFEA fee(s) as applicable
- Freezing and storage of up to 2 samples for use in treatment (if required)
- Storage of samples for you to 3 years (if required)
- Please note donor specific screening bloods are not included as these depend on patient ethnicity in accordance with the HFEA code of practice

Known sperm donor £2500

Known egg donor £4000

Shared motherhood

We support the LGBTQ+ communities This treatment package allows for a female partner to create embryos using her own eggs, sharing them with her partner who will carry the pregnancy. The fee's include:

- All nursing appointments
- All monitoring scans for both patients
- Blood group, Haemoglobinopathy, Cytomegalovirus, CMV IgG and IgM, VDRL & Chlamydia
- Genetic screening (Cystic Fibrosis screening & Karyotype)
- Counselling
- Supply of donor sperm for use during the treatment cycle only
- Egg collection including anaesthetic services and review (if required)
- Embryo culture to blastocyst day 5 (if required)
- Time lapse imaging with photograph at transfer of embryo(s) selected for transfer
- Embryo transfer and embryo glue
- Early pregnancy scan (if required)
- HFEA fee(s) as applicable
- Please note donor specific screening bloods are not included as these depend on patient ethnicity in accordance with the HFEA code of practice

Total package price £5895

Recurrent implantation failure investigations

Unfortunately not every embryo, even those which are top quality, will result in a positive pregnancy test or ongoing clinical pregnancy. You consultant may suggest one or more of the following tests to help determine if there are any identifiable underlying conditions as to why this may be happening to you. These tests are only carried out after a number of failed attempts and are not suitable for all patients. Patients may also be advised to have karyotyping in addition.

Recurrent implantation failure investigations package £200

(Includes: - Fasting homocysteine, Anti-Cardiolipin antibodies, Lupus anti coagulant anti bodies, Thyroid peroxidase antibodies & Coeliac disease screening)

Fasting homocysteine £40

Anti-Cardiolipin antibodies £60

Lupus anti coagulant anti bodies £40

Thyroid peroxidase antibodies £30

Coeliac antibody screen £30

Unk Cell levels testing (This test is not carried out at our centre. Please discuss this with your clinician) £POA

Additional diagnostic investigations

The consultant may speak to you about the possible benefits of having blood tests during your treatment in addition to standard screening bloods required by the HFEA. This can be for a number of reasons including optimization of your treatment cycle or for your continued physical health. You will have time to consider any suggestion prior to you having the blood sample taken, during which time you may seek a second opinion. Payment is required before a blood request form is issued.

Semen Analysis £125

HB screen & FBC £55

Cytomegalovirus £35

Rubella antibody £35

Chlamydia £40

Full blood count £30

Vitamin D £55

Blood Group £40

Cystic Fibrosis £300

Karyotype £310

Fragile X £340

Y Chromosome Deletion POA

Serum Iron £25

HIV PCR £120

Follicle Stimulating Hormone & Luteinising hormone (FSH & LH) £40

Progesterone £30

Prolactin £35

Testosterone £35

17 Beta Oestradiol £35

Thyroid Function test £35

Beta HCG £35

VDRL/TPHA £36

Viral screening package price per patient (if required) Viral screening bloods for HIV1+2, £158

HTLV1+2, HepC, Hep B core & surface, TPHA

Sex Hormone Binding Globulin (SHGB) £30

Androstendione £30

DHEA £30

Thrombophilia screen £190

Additional Treatment(s) & Charges

Any additional costs for add-ons are clearly detailed and will be explained. These will be on a clinical need basis and any risks/benefits explained to you. We will direct you to the HFEA website and the traffic light system for add-ons and the rationale for use of add-ons. This will explain any evidence to support the use of add-on treatments increasing the chances of a live birth and any risks that may be associated with add on treatments.

Counselling	FOC
Silastic Condom	£30
Geri time-lapse video of embryo development	£30
Endometrial Scratch	£270
Cyst aspiration	£420
Trial of catheter with use of Dilapan	£150
Anaesthetic cover for embryo transfer, endometrial scratch and/or trial catheter	£420
Trial catheter prior to treatment	£110
Medication packages	Please ask for the medication price list
Access fertility supply of donor sperm to be used in a fresh treatment cycle	£1100
High Vaginal Swab	£50
Chlamydia/Gonorrhoea and high vaginal swab combined	£125
Single Ultrasound (we can only offer this service to Leicester Fertility Centre patients)	£100
Private Interpreter Charge	£60
Administration fee for the transfer or receipt of gametes/embryos	£200
Administration fee for exporting gametes overseas	POA

PGT-A costs

We offer Pre-implantation genetic testing of embryos for aneuploidy (PGT-A). The possible benefits and risks of this add-on procedure will be discussed with you by your consultant. We will direct you to the HFEA website and the traffic light system for add-ons and the rationale for use of add-ons. This will explain any evidence to support the use of add-on treatments increasing the chances of a live birth and any risks that may be associated with add on treatments.

IVF or ICSI Package as required includes:

- embryo biopsy
- Pre implantation genetic analysis (PGT-A) for first embryo
- MDT to review results
- 1 specialist genetic counselling session
- embryo freezing for 3 years
- HFEA fee
- first embryo thaw and transfer

Private New Patient Consultation to discuss IVF/ICSI up to 30 minutes	£210
Private planning appointment (1 hour) with consultant to plan IVF/ICSI with PGT-A	£210
Private follow up consultation to discuss PGT-A results and plan FET	£185
Private follow up consultation to discuss PGT-A results <i>without treatment</i>	£80
IVF + PGT-A – for first embryo	£4430
ICSI +PGT-A – for first embryo	£5690
Additional PGT-A testing per embryo	£595
Administration fee, patient registration – non refundable	£100
Subsequent Frozen Embryo transfers (not including drugs)	£1300
Additional embryo storage: Up to 7 years storage	£700

Additional genetic counselling per session

£175

International Egg Donor Programmes

Patients may choose to travel overseas for egg donor treatment. The Leicester Fertility Centre offers a satellite service with our partner clinics, Instituto Bernabeu (IB Alicante Spain) and Crown IVF (Cyprus) to facilitate treatment.

Fees payable directly to Leicester Fertility Centre

Leicester Fertility Centre Package- Egg donation (Includes Consultations, nurse appointments, monitoring scans, counselling and post treatment follow up)	£1000
Leicester Fertility Centre Package- Frozen Embryo Transfer (Includes Consultation, monitoring scans, BHCG and post treatment follow up)	£500
Pre-Treatment Investigations per patient – egg donation recipient Viral screening bloods for HIV1+2, HTLV1+2, Hep C, Hep B core & surface, TPHA, CMV, blood group. Rubella & Hb screen	£298
Pre-Treatment Investigations per couple Viral screening bloods for HIV1+2, HTLV1+2, Hep C, Hep B core & surface, TPHA, CMV, blood group. Rubella & Hb screen Semen analysis	£600
Pre-Treatment Investigations per partner, (if required) Viral screening bloods for HIV1+2, HTLV1+2, Hep C, Hep B core & surface, TPHA, CMV, Blood group, Semen analysis	£358
Cystic Fibrosis screen for male partners	£300
Repeat viral screening package price per Patient & Partner (if required) Viral screening bloods for HIV1+2, HTLV1+2, Hep C, Hep B core & surface, TPHA	£158 per person
Medication	POA

Instituto Bernabeu (IB)- Alicante

Fees payable directly to the IB IVF clinic

Egg Donation cycle with ICSI	€7500
Second Cycle (within one year)	€6000
Embryo Cryopreservation up to 3 embryos	€400
Embryo Cryopreservation more than 4 embryos	€600
Frozen Embryo Transfer	€1500
Embryo Adoption (donation) 1 Embryo	€4000
Annual Embryo storage (after 1st year)	€300
Mammogram	€120

Crown IVF Centre Cyprus

Fees payable directly to the Crown IVF Clinic

Egg donation (includes Egg donation cycle, ICSI & embryo freezing for 12 months)	£7300
Frozen Embryo Transfer	£2700
Annual Embryo Storage Fee	£250
Sperm Donation	£1000
Medication packages	POA- approx.£258
